## Specialty Dried Ingredient Supplier Woodland Foods to Expand Into Third Facility in 2018

WAUKEGAN, IL (November 10, 2017) – Woodland Foods, a leading importer and supplier of over 1,500 dried ingredients, has recently announced plans to expand their operations into a third facility in 2018.

This expansion into a third building will increase the company's manufacturing and warehouse space in Waukegan, Illinois to a total of 450,000 square feet. Woodland Foods plans to use the newly acquired building, located at 3731 Sunset Avenue, for additional office space, warehousing, and a new food sterilization system from food safety company Agri-Neo.

"This additional facility allows Woodland Foods to enhance our capabilities in providing safe, high-quality ingredients to our customers," said Ray Janson, Chief Operating Officer of Woodland Foods.

By securing this third facility and expanding their operations, Woodland Foods is poised to continue their rapid growth and to remain one of the industry's most trusted and respected suppliers of specialty dried ingredients.
